

Attention!
Be very accurate by folding the paper, the precision of the folding affects accuracy of the Angel adjusted.
Print in A4 format to achieve maximum accuracy
Note: A Two sided Print will make angle adjustments easier

Use folding edges in back light to adjust the angle¹⁾

1cm equivalent to 10µm

1.4125 (440C)

CPM S90V

Talonite

1.2510 (O1)

1.2379 (D2)

1cm equivalent to 10µm means A4 print format is equivalent to a magnification of 1000x
